Our Times

Time...

and time again
pay tribute to our restless style
and forgetting not youthful vigor
rest a while.

Reminisce...

at full day
when night would toll your worth
and work and play
would spend or save
the moments,
rythmically made.

Time...

so patiently passing by,
speak out to yesterday and today
and forever pray
for time;
your time;
our times.

DEDICATION

DR. W. PINCHIN

For your
quiet efficiency,
commitment to excellence,
behind-the-scenes work
and going that extra distance
we thank you.

THE PRINCIPAL

"Time is the stuff that life is made of", somebody once said. Certainly, we are all creatures of time, our lives governed by the relentless passing of the days, the weeks, the years. Life at College, perhaps more than anywhere, is lived in the consciousness of time's demands and opportunities.

A year in the life of a student is a unique experience in time, a rapid succession of days, each laden with its own special memories — discoveries in learning and knowledge, good times with friends old and new, crucial insights into self-understanding, high points of worship and commitment. Times like these have made 1987 a memorable year in the lives of Avondale Students.

Jacaranda '87 reflects these times — this Avondale experience — for students and staff alike. These times were your times. Live them again as you turn the pages and remember.

Principal

God's Time

When my heart has given in
Never to hope again
You become the strength in me
When dreams have fallen through
When all I have left is you
I find you're all I need
Like the times before
You help me face today
Tomorrow, forevermore
You're constantly the same.

It's so good to know
You always love me
So good to know that
You are always there
So good to know that
You are thinking of me
In times like these
I'm so afraid
And so alone
So good to know you care.

Isa.40:31

" those who hope in the Lord will renew their strength. They will soar on wings like eagles they will run and not grow weary they will walk and not be faint"

CAMPUS MINISTRY. (L to R) Neil Wake (leader), Ranald Urquhart, Des Garrick, Rosalee Nixon, (seated) Dianne Richards, Carolyn Dickson, Karelle Rippingale.

In song.

In view of the Campus Ministries team the most important accomplishment for students at college is to commit themselves fully to Christ. Such commitment enables them to be "free to soar" — an expression which has become the 1987 theme for Campus Ministries. To pursue its spritual aims the Campus Ministries team has established a busy weekly calendar, illustrated by the diary of the team leader . . .

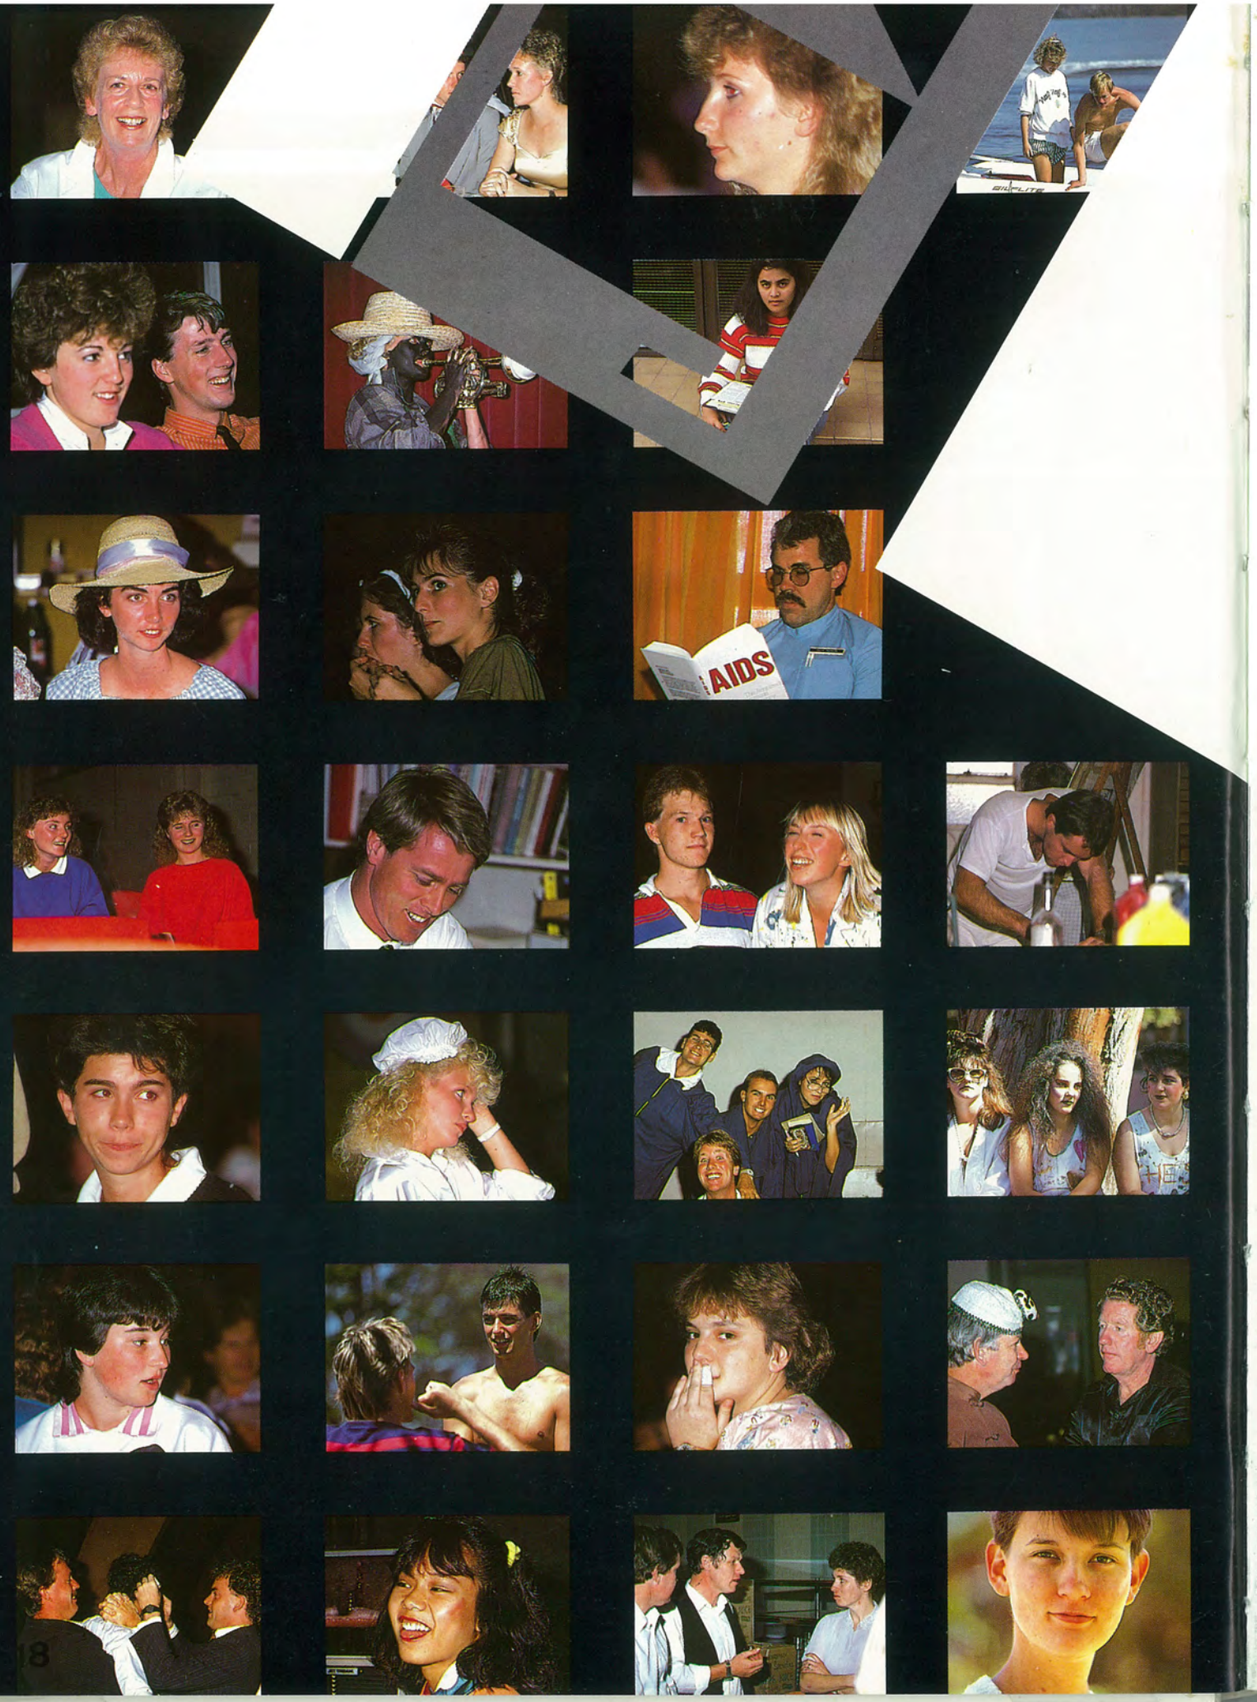
MONDAY: Weekly worship committee . . .forthcoming worships, vespers, sabbath activities to be planned by our artist, music director, and team leaders. Do not forget to encourage each other here.

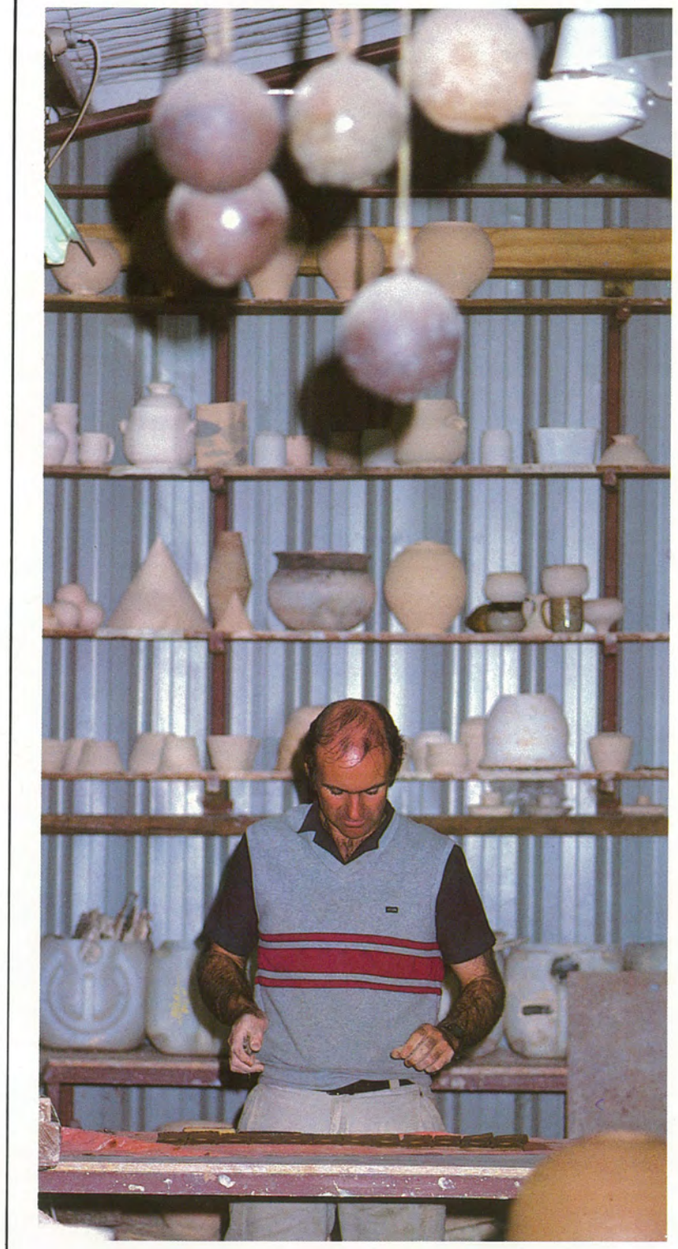
TUESDAY: Tuesday night — combined worship. How can we get across a simple message in twenty five minutes? With variety in talks, skits, slides, singing and student participation.

WEDNESDAY: .Make sure things are ready for Sabbath.
&
THURSDAY:

FRIDAY: Opening Sabbath. . .make students feel at home in welcoming Sabbath in together, in song and praise.
Vespers. . .items and song service organised and prepare drinks for fellowship later.

SABBATH: Exciting visits to two churches. Great fellowship with members. Music video shown at college plus door-to-door surveying at Windale and Belmont in the afternoon.





Class Time

Aside from pressures of assignments essays and other forms of punishment, college is made up of friendships and memories . . .
It is not just a place to buy an education but a place of experiences. I thank those who have made college this for me.

Being a married student . . .
What is it to be a married student?
It is sharing your life
and dreams with your loved ones . . .
And studying.
It is working with your partner
And studying.
It is giving of your time
and energy
And studying.
It is sneaking away from College
for a picnic
And studying.
It is playing with your children
And studying.
It is solving problems
with your partner
And studying.
It is praying and working together
through the times of stress
And studying.
It is enjoying life with your family
And studying.
It is feeling like giving up
And studying harder.
It is love, commitment

I am experiencing many new things such as strange foods and new situations. I have also been asked some challenging questions about English life, Western customs, Australia and Christianity. What makes Korea exciting is the people, particularly my students. I know the Lord has helped me a lot.

Michelle Cottier

The English teaching is easy to do and it is a lot of fun but there is also the constant pressure of standing up in front of a class thirty hours a week. We also have Bible meetings and Sabbath Schools to take. I am now director of our three-teacher school, so that also keeps me busy. A busy life is a rewarding life.

Neroli French

Hi everyone. Well, living in a city of over ten million people is never dull. Seoul is a very busy and progressive city. Sometimes it is easy to forget that I am in a developing country. Teaching English here is extremely easy and the students are always a lot of fun. The past months have been an adventure. I do not regret coming here at all and I recommend the student missionary life to anyone with an adventurous spirit. It is an experience you can have that gives a greater understanding of life, God's love, and His purpose for us.

Richard Levett

Hello from this far-away place. Actually, when you are really here it is not so far away at all. We are all healthy and happy — especially because after tonight's three classes we have one week's holiday. We will all probably be going to Pokhora, the most beautiful part of Nepal, to camp near the rivers there. We have been working really hard so we are all very exhausted. Now we are in the middle of giving our mid-season tests so we all have seventy papers to mark. Lots of fun! A children's language program begins in two weeks. Twenty really poor children will be brought in to school for the next three years to be educated in vocational and literary skills. The work here is very worthwhile and satisfying.

AVONDALE COLLEGE FOUNDATION

In 1987 the Avondale College Foundation has continued to increase its highly successful financial support for the college. With an ever expanding membership of over 1000, the Foundation has now given $1.85 million in assets to the college. To date, this year has been the best ever for ACF. The Foundation has not only profitably run five business ventures, but has undertaken a major development of its wholesale nursery, after purchasing a substantial Dural property. With its long term perspective, the Foundation adds a most positive dimension to Avondale College's future plans.

Less the strangers we are.
We were just faces to begin with
And we were thrown together.
Along the way
I began to know you,
Your strengths, faults, talents
Your joy and pain.
I began to share these with you,
And you challenged me
To grow.
We journeyed together
And now we have gained
Memories from our times together.
For less the strangers we are,
Life-long friends we have become.
Sherilyn Moodie

There is a time for self-development.
My time at college — no one can take.
Yet this time will one day leave me.
But my memories, my friends,
my education will always remain,
For my time here is forever
locked within my character.
Danny O'Neil

When I stop and look around me
And I see how far I've come
The road ahead gets to looking long —
And I've only just begun
A voice inside reminds me
I haven't come alone
You wouldn't bring me this far
Just to leave me on my own.
Growing stronger with every step I take
I'm learning to depend on you —
And how to use my faith
Growing stronger with every battle
That I win
It's plain to see
You're teaching me
Everything I need to know to be
Strong enough for anything . . .

HELEN

The sweet of earth
Contentedly resigned,
And each tumultuous working
Left behind.

S.M.P.

Student Media Productions is a subsidiary of the Public Relations Department of Avondale College. The aim of S.M.P. is to provide realistic information about college. The S.M.P. team has continued and activated a number of creative schemes this year. For example, a major opportunity for promotion occurs at camp meetings. There students set up a tent with posters, videos and leaflets. They use these media to present Avondale College to campers as meeting the spiritual, educational and social needs of Adventist young people.

S.A.C

As the name 'Student Activities Committee' suggests, S.A.C. is a group of dedicated students who keep the social calendar colourful. S.A.C. activities are designed for maximum involvement of students and staff. The committee organises talent nights, beach nights, '50's teas, 'champagne' breakfasts and many non-descript activities. It is the social dimension of the college experience which will stay long in the memory of those who have participated.

A.S.F.A.

The Avondale Student Faculty Association is a student-run organisation through which students and administration can communicate effectively. In this role, A.S.F.A. provides student representation on administrative decision-making committees. A.S.F.A. is the controlling body for most spiritual, social, sporting and everyday activities on campus. Through A.S.F.A. the student body and administration work together toward a common goal to make Avondale an attractive place where young people will feel at home and develop skills for effective service.

THE TEAM

This Jacaranda has endeavoured to portray a cross-section of our times at Avondale in 1987. God gives us all a portion of time and we are all accountable for the way we spend it. The college year is considered one unit of time, and I trust Jac '87 will help revive fond memories of this period of Avondale College life.

I have appreciated the effort, the diverse talents and the creativity of the production team, Brian, Linda, Rod, Brendyn and Dr. Hill, as they have helped produce this account of our times.

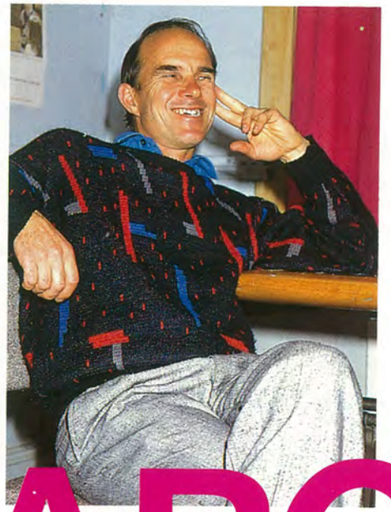
PROGRESSION

Breaking ground for the new girls dorm.

Opening of the sports and fitness centre.

You may have noticed our photographer, Brendyn, striding purposefully around campus, head down, replete with dustcoat pursuing yet another elusive subject. Brendyn has entertained us with his verbal quips, has chased meals for us, and has flooded the office with a stream of great shots, which have brought college life in '87 into the summative form of Jacaranda.

Our Sales Manager, Rod, has always been on hand with creative suggestions. We have enjoyed his chirpy good humour and constant support. Rod has been a quiet but tenacious achiever, securing advertising sponsors, organising his sales team, and arranging the entertaining Jac banquets.

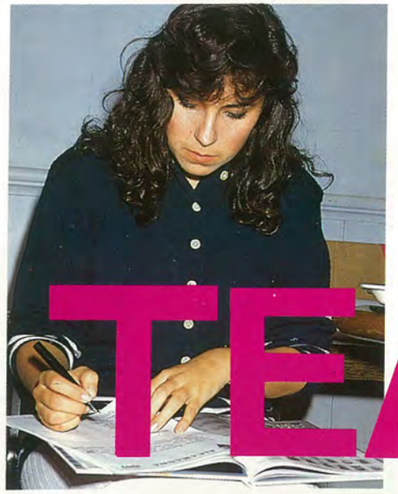


Dr. Barry Hill, advisor in all areas of the Jac production, was the stabling and mature influence in the Jac room. His persistent grin and pleasant nature became challenged constantly by decisions, creative ideas and piles of literary articles. Yet he survived to remain our earnest, encouraging and consistantly helpful staff 'slave'. His awareness and perceptive guidance has been greatly appreciated by the rest of the production team.

ABOUT THE TEAM...

Upon entering Jac headquarters, we would invariably encounter our layout editor, Brian. He would be either pouring over a batch of slides on the light box or meditating on his lofty stool. With cheeky grin, twinkle in the eye and quiet persistence, Brian seemed to be an anchor man in the Jac room.

Always organised and omnipresent, our editor, Derek, has worked doggedly on all production fronts this year. Confident and decisive, he has helped us all, nudging us along with a smile and gentle insistence. Thanks for pulling all the Jac's threads together so competently Derek.



We could always count on extracting an infectious laugh or flashing smile from our literary editor, Linda. Insistent on pursuing quality and a positive tone in Jac, she has sifted through reams of 'literary' submissions. Somehow, amidst leotards, half-eaten teas, and paper scraps, Linda has wrought a coherent literary picture of college life derived mainly from college students of this year.
